Dr. P. Santosh Kumar Patra,
Principal

Dear all,

Greeting's from St. Martins Engineering College.

I am delighted to be the Editor-in-chief for “STHAPATHYA -2023” Newsletter of Department of Civil Engineering and desire that the newsletter will unfold all domains of the year long events and research activities the department is engaged in. And the newsletter will boost the enthusiasm of the students and faculty to reveal to the world plethora of developments in field of civil engineering contributed by them. The newsletter aims to bring different ideologies under one roof and provide opportunities to showcase the achievements and establish an impactful insights. It has stood out in creating an impeccable impression by including multiple endeavour’s like faculty and student involvement in government consultancy works, research publications, participation in competitions & I congratulate for conducting International conferences, FDP, webinar, Guest lectures, Seminar, Workshop, Industrial visit, Patents, and Research Publications.

I appreciate the faculties, coordinators students and Department Head of Civil Engineering for their continuous untiring contribution in making the newsletter a reality.

Prof. Sandhya Kiran J K,
Head of the Department

Warm Greetings!

The Story of progress of civilizations is entwined with the story of Civil Engineering. It is important to remember that our engineers have always been involved in the process of building the world with innovative materials and complex shapes to withstand the forces of nature beyond their control.

STHAPATHYA exhibits opportunities department has availed to network, collaborate and flesh out research projects endorsing problem statements from utilizing market waste to generate electricity to latest construction material that help built sustainable environment and also to take a lead in finding a solution for decomposition of plastic waste to organic matter. I am glad to express efforts of faculty and students are fructified.

Sthapathya enfold technical events of department that have witnessed experts from industry address our students and hands-on experiences of students at industrial visits and ideas and guidance of faculty members offered to students that have helped them win accolades. I congratulate the editorial team and hope that the readers will enjoy the insight into the world of Civil Engineering and encourage us in building an egalitarian society. Looking forward for international conference to coalesce new and innovative approaches and scientific innovation to capitalise on the opportunities while addressing the challenges inherent in the revolutionary trends under conclave of civil engineering.

K. Chaitra, Assistant Professor

“When we build, we create not just a structure but also a relationship with the community in which it stands. The success of our efforts depends on how well we understand both the needs of the community and the constraints imposed by the site. We must be sensitive to both these factors at every stage of design and construction. Structural Engineering is the art of modeling materials we do not wholly understand, into shapes we cannot precisely analyze so as to withstand forces we cannot properly assess, in such a way that the public has no reason to suspect the extent of our ignorance.”

M. Sravanthi , Assistant Professor

“The purpose of education is to turn mirrors into windows.”

I am very proud to say that the department for such an initiative to provide a platform for communicating the innovative ideas of the students and faculty members. They can also write about the improvements, required in the curriculum and syllabus of the course and subjects the study.

S. Priyanka, Assistant Professor

“Ours is a numerate profession. We don’t have to be mathematicians but mathematics is central to much of what we achieve. The profession is firmly rooted in the sciences of physics and chemistry. It has foundations in the visual arts; it is close to architecture. Above all, it is founded on logical thinking. It is demanding, where the burden of ensuring safety is always to the fore, as we strive for structural efficiency and excellence.”

Ch. Kalyani, Assistant Professor

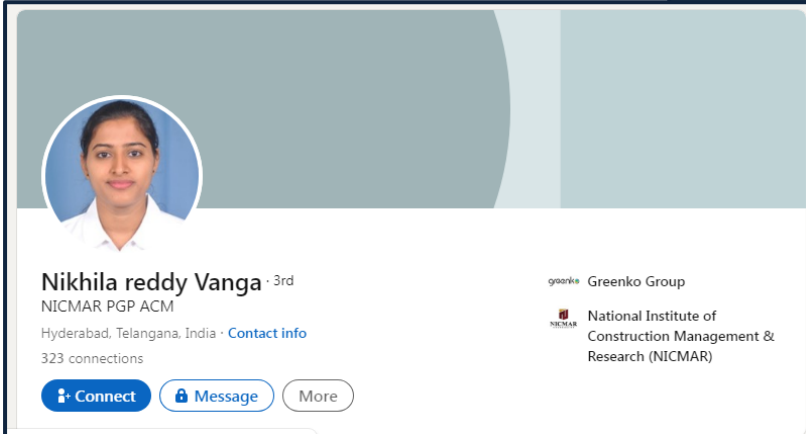

“An All Round Learning Experience, Not Just An Academic Destination.”

The exciting thing about studying at SMEC is that a student will be a part of International learning experience. The learning approach emphasizes an advanced understanding of strategy, leadership and management to ensure maximum returns on your educational investment.

L
V
I
S
I
T

The Kaleshwaram Lift Irrigation Project is a multi-purpose irrigation project on the Godavari River in Kaleshwaram, Bhupalpally, Telangana, India. Currently the world's largest multi-stage lift irrigation project, its farthest upstream influence is at the confluence of the Pranahita and Godavari rivers. Entire visit in the dam was explained in detail by Assistant Engineer of Kaleshwaram Project and Lower Manair Dam, its specification and working was very well explained to the students. Students acquired the knowledge of functioning power generation and principles behind working of pumps

Students who visited the dams and lift irrigation project curiously noted details of design, operational functionalities and project implementations that are serving entire state and especially farmers of the state.

Students also noted in detail about hydraulic structures in Irrigation project such as spillway energy dissipaters, gates, canals, canal drops etc. as per the feedback from students it was a good learning experience.

Infra Market Concrete Plant

Students gained hands on experience of the industry preparing of Ready mix concrete Explained by officers at INFRA MARKET CONCRETE PLANT, which allowed them to understand many of their Core Subjective Topics.

PUSA Decomposer Method for Solid Waste Management

ENVIRONMENT PROTECTION TRAINING AND RESEARCH INSTITUTE
An Autonomous Institute of Government of Telangana

GRAND CHALLENGE FOR INNOVATIVE IDEAS
Invites project prototypes of drying devices / technologies for mixed Municipal Solid Waste before treatment process

Sponsored by
GHMC & HIMS W Ltd.

Win Prizes Worth One Lakh
Conditions Apply

Profile: GHMC is generating about 8000 Tons per Day of an segregated waste. It is being collected, transported and scientifically processed & disposed by Hyderabad Integrated Municipal Solid Waste Ltd. (HIMS W) at Baramahal Integrated facility.

The un segregated MSW received at the integrated facility through vehicles is unloaded at tipping floor and kept for one week for natural drying to avoid clogging of the trommels (sieves) with wet waste and to avoid poor quality of compost. This process is resulting in accumulation of the waste at the tipping floor and creating odour nuisance.

EPTRI looking for the innovative alternative ideas to shift from the natural drying up of mixed waste by mechanical way for speedy and effective treatment process and to address accumulation of waste at tipping floor subsequently to arrest the emanating odour nuisance.

Interested participants may drop an email for more information.

Please Note:

- Project prototypes are welcome from graduate and post graduate student (s) professionals/Environmental Practitioners
- The last date of registration is 07th November, 2022.
- The last date of Submission is 15th November, 2022.
- Participants are requested to register on <http://eptri.telangana.gov.in/8088/eptri/register1> for submitting their entries and for further details
- For any further query drop an email to esdeptri@gmail.com

Registration is Free

STREET CAUSE LENDING A HAND

As the principal of St. Martin's Engineering College, Dr P Santosh Kumar Patra's firm belief, humanity should not be conveyed but it should be spread with love and concern, The Street Cause SMEC team donated 14 boxes of clothes. Those five places include 3 orphanages (Ramanjaneya Charitable Trust, Swecha Foundation, Thara Homes), 1 old age home (Sri Dharmha Sastha old age home) and 1 slum area (near Mudford, Secunderabad). The number of people impacted are around 400.

THE INDIAN EXPRESS (03-12-2022)

Orientation Day at St Martin's Engineering College

Orientation Day 2022 for B.Tech first year students at St Martin's Engineering College was conducted in a very grand manner. The programme was attended by the chairman Marri Laxman Reddy, executive director G Chandra Shekhar Yadav, Director G Jaikisan Yadav, Principal Dr P Santosh Kumar Patra, faculty, students and

parents. Chief guest for the programme was Ch.Malla Reddy, the Minister of Labour, Employment, Women and Child Development, Telangana.

THE INDIAN EXPRESS (03-11-2022)

విద్యార్థులు స్వయం కృషితో ఎదగాలి

విద్యార్థులు స్వయం కృషితో రాణించేందుకు సెయింట్ మార్టిన్ ఇంజనీరింగ్ కళాశాల ఆధ్వర్యంలో ప్రత్యేక శ్రద్ధ కీసుకుంటుంది కళాశాల చైర్మన్ మర్రి లక్ష్మణరెడ్డి, డైరెక్టర్ చంద్రశేఖరయ్యాదవ్ అన్నారు. సోమవారం కళాశాలలో జాతీయ స్థాయి ఎంటర్ప్రెన్యూర్షిప్ డెవలప్ మెంట్ 2022 స్వయం కృషి పేరుతో సదస్సును నిర్వహించారు. ఈ సందర్భంగా ప్రెస్సిపాల్ డా.పి.సంతోష్ కుమార్ పాత్రతో పాటు ఏకంగా ఈ ఏడుకేమ్ సాఫ్ట్ నెట్వర్కులు సాయిప్రసాద్, మంజులక్ష్మి శ్రావ్య అతో కలిసి సదస్సును ప్రారంభించారు. పలు రకాల ఆలోచన విధానాలను 54 స్టాప్స్ ద్వారా విద్యార్థులు ప్రదర్శించారు.
